Governor Diversification Award Highlight 16 Florida Businesses

Tallahassee (September 5, 2008) – Sixteen Florida companies will be honored this month with Governor's Business Diversification Awards, which recognize business achievements that advance the state's economy through job creation and distinctive community involvement and capital investment.

John Justak (President) & Charlie Crist (State of Florida Governor)

"The basis for the prosperity and high quality of life Florida offers is our entrepreneurs and business leaders," said Enterprise Florida President & CEO John Adams Jr. "Their exemplary accomplishments in creating high-value jobs, making capital investments and contributing to their communities are setting the stage for a future economy that will serve all segments of our population very well."

ATGI develops disruptive technologies for the aerospace and private sectors. ATGI is an independent, privately held engineering research and development firm. ATGI was formed in 1995 to meet the needs of government and private-sector clients with technological challenges that defy conventional solutions. ATGI has the capability to design, develop, manufacture prototypes and perform tests in their laboratory facility, by providing innovative, timely, cost-efficient design and consulting services. ATGI has seen both our government and private-sector client base broaden significantly.
