Tomorrow's Technology Today

## Innovator

John Justak, founder and president of 10-employee Advanced Technologies Group in Stuart, works with NASA and the Defense Department on engine turbines, instrumentation and other highly technical work. Justak (pictured here with an L.E.D. array used to transfer power to electronics equipment for future use in the Joint Strike Fighter) wants more commercial work in 2007. Photo: Jeffrey Camp

**SLOW GROWTH:** Famous for its fear of joining the south Florida metropolis, Martin continues to look askance at major growth. That said, there's no shortage of pioneering ideas from existing businesses, such as Stuart's Advanced Technologies Group, a developer of novel engineering answers for problems defying conventional solutions. Founder and President John Justak's hunt for a place to put a new engine test lab typifies the Martin quandary. "I like living here because of all the restrictions, but trying to do business is different," Justak says. The exception in Martin is the more welcoming community of Indiantown, which will see 6,300 new homes in a few years.

ATGI develops disruptive technologies for the aerospace and private sectors. ATGI is an independent, privately held engineering research and development firm. ATGI was formed in 1995 to meet the needs of government and

309 SE Osceola Street, Suite 206 | Stuart, Florida 34994 | Voice 772-283-0253 | Fax 772-283-0255 | [www.atgi.us](http://www.atgi.us) | [info@atgi.us](mailto:info@atgi.us)

private-sector clients with technological challenges that defy conventional solutions. ATGI has the capability to design, develop, manufacture prototypes and perform tests in their laboratory facility, by providing innovative, timely, cost-efficient design and consulting services. ATGI has seen both our government and private-sector client base broaden significantly.

ATGI provide specialized services to clients that are developing emerging technologies, pushing the frontiers of innovation to develop advanced solutions to challenging problems in the markets of Aerospace, Defense, Homeland Security, Transportation, Marine and Ocean Systems and Medicine and Healthcare. To find out more information, visit the ATGI website located at [www.atgi.us](http://www.atgi.us)
